August 7, 2019 - Greetings, Q: Is there anyone else who prefers the original Alpha Centauri over the Crossfire expansion? I mean it's very cool and I'm very glad that it happened. It fits perfectly with how I feel, how my sensations look. However, I do have some questions about what Crossfire will look like once it's released, as we can't say it's "all at once". I would like to know what happens to the other characters in the new chapter and what the new worlds look like. In particular, I'm interested in what our friends look like at the end of Crossfire?
